

Our World Café event addressed three specific areas for the IIRC:

- Input on the Vision and Mission of the IIRC
- Areas that the group would like to see the IIRC focus on
- Outputs and offers for areas of expertise that could be shared

The core team has completed the Vision and Mission.

In line with the above, we have planned activities and events for 2011, that will include topics around Setting Future HR Trends and Setting HR Standards. A big area of focus that was expressed was the use of technology to support the Community; ideas like an online community, directory with photos, chat room, use of a social network link to support our Community, etc, we will be working on this and if you have expertise in this area please contact Carsten Sudhoff directly: [carsten.sudhoff@weforum.org](mailto:carsten.sudhoff@weforum.org)

In addition, input on the frequency and format of the meetings varied from face-to-face breakfast meetings, lunch forums, conferences and bimonthly meetings. Please have a look at our program 2011.
